

Shell General Purpose Grease

General purpose grease

General purpose grease based on a mineral oil and a lithium thickener

Application

Shell General Purpose Grease is a simple grease for slightly loaded applications. Furthermore it's under use in e.g. painting cabins in industry sectors.

Properties

Shell General Purpose Grease is a sticky and water resistant grease based on a mineral oil and lithium soap.

Typical Physical Characteristics

NLGI Consistency	2
Colour	Brown
Soap Type	Lithium
Base Oil (type)	Mineral
Cone Penetration Worked @ 25°C 0.1mm (IP 50/ASTM-D217)	265 - 295
Dropping Point °C (IP 396)	> 170

These characteristics are typical of current production. Whilst future production will conform to Shell's specification, variations in these characteristics may occur.

Health & Safety

Shell General Purpose Grease is unlikely to present any significant health or safety hazard when properly used in the recommended application and good standards of industrial and personal hygiene are maintained.

For further guidance on Product Health and safety refer to the appropriate Shell Product Safety Data Sheet
